The Honorable Robin Kelly
U.S. House of Representatives
1239 Longworth House Office Building
Washington, DC 20515

Dear Representatives Hurd and Kelly:

On behalf of the Unisys Corporation, thank you for introducing the Modernizing Government Technology Act of 2017 (MGT Act). Unisys strongly supports enactment of the MGT Act because it provides needed flexibility and funding resources to enable the Federal Government to modernize its legacy IT systems and leverage government-wide resources to gain efficiencies.

As a global information technology company that provides leading edge security solutions to the government and commercial markets, Unisys recognizes that one of the major challenges facing clients is how to fund modernization investments while maintaining existing mission critical IT systems. The MGT Act addresses this challenge by authorizing new modernization funding mechanisms for Federal agencies that will allow them to build in cyber security by design, effectively share government data, create long-term savings and eliminate duplication.

Thank you again for introducing this much needed legislation. If you desire more information or if we can be of assistance please contact me at the contact information above or Roger Jordan, Director of Unisys Government Relations, at roger.jordan@unisys.com or 703-439-5376.

Sincerely,

Venkatapathi Puvvada
President, Federal Systems
